Welcome

Welcome to the International Sheet Metal Review newsletter

Dear Reader,

International Sheet Metal Review (ISMR) has been back in print for over a year now! The new look design has been hailed as a success by leading advertisers and contributors and has helped bring a fresh look, offering truly global

and independent coverage to all our valuable readers. Its success lies in a unique blend of technology, analysis and business issues presented in a fresh and lively format. The magazine is carefully targeted at the key companies, manufacturers and subcontractors in the most buoyant sectors of the industry.

Look out for the following up-to-date, in-depth features in our next issue including:

- Comprehensive Hydraulic and Mechanical Press feature
- Focus on coil processing (including Ecca report)
- Press Brakes and folders feature
- Punch Press feature
- Focus on the German Marketplace
- Central/Eastern European regional review
- Alongside the regular exciting mix of industry new reviews and latest development.

Contact us now to request your free sample copy or with your comments.
