This newsletter is sponsored by

## Welcome to the November 2009 issue of International Sheet Metal Review's newsletter!

Don't miss the forthcoming BLECHIndia exhibition in Mumbai next week! ISMR's handy BLECHIndia preview will give you an overview of the event – click here for the preview. We have also prepared a handy Mumbai city guide – the first in ISMR's new series of city guides for exhibition previews – to help you navigate the city and the sights. Click here to access the city guide.

In the current challenging economic climate, ISMR unveils more ways in its latest issue for sheet metal users to cut costs, improve productivity and keep an eye on quality. Flexible tools that allow manufacturers to quickly adapt production and working hours to demand and the innovative use of equipment and automation can help to achieve these goals.

In the latest magazine issue, we also reveal new opportunities in emerging markets, such as China and India, and new production and design software launches. We also discuss trends in coil processing markets with the President of the

National Coil Coating Association in the US. ISMR's new-look website is now online to see a list of forthcoming features in ISMR. Our next issue will cover, amongst other topics, welding, joining and fastening as well as a South American regional market analysis for sheet metal users. It will also focus on press brakes and folders, flexible manufacturing systems, automotive markets and defence/marine markets for sheet metal formers and fabricators. Click here if you wish to participate in this issue.
